Indigenous Data: A scoping workshop on enhanced access and creative use of data on Indigenous Australians

Wednesday 13 April 2011 9.30am – 2.30pm

The Jean Martin Room (3.32, Level 3) Beryl Rawson Building #13, ANU College of Arts and Social Sciences, The Australian National University (Coffee available from 9am, lunch provided)

The HC Coombs Policy Forum in conjunction with the Centre for Aboriginal Economic Policy Research (CAEPR) at The Australian National University (ANU) is organising a small high-level workshop aimed at identifying creative use of new and extant data on Indigenous Australians. The data gaps identified at the 2011 CAEPR conference on 'Social Science Perspectives on the 2008 National and Aboriginal Torres Strait Islander Social Survey (NATSISS)' need to be addressed, and effective policies developed, informed by peer reviewed findings arising from any creative analysis.

Format

Participation is by invitation only. This will be a roundtable discussion with some brief discussion starters (Seven minute maximum). All discussions will be subject to the Chatham House rule.

Objectives

The specific objectives are:

- A. Identify the key challenges for augmenting the evidence base, to help inform policy-makers and legislators
- B. Construct a positive agenda for closing the data and analysis gap.

Structure

Three substantive sessions, organised as follows:

Welcome and introduction

1. Insights from overseas (80 minutes)
2. Creative collaboration between universities, the public sector and private sector (80 minutes)
3. New methodologies in research for Indigenous Australians (70 minutes)

Wrap up and next steps.

CONTACTS

Associate Professor Boyd Hunter
Senior Fellow, CAEPR, ANU
T 02 6125 8207
E boyd.hunter@anu.edu.au

Dr Nicholas Biddle
Research Fellow, CAEPR, ANU
